

Hillbilly Horseshoes

Hillbilly Horseshoes: players take turns tossing small bags filled with corn at a raised platform with a hole in the far end. A corn bag on the platform scores, but a bag in the hole scores even more. Play continues until one player reaches 21 points. The game can be played individually or in teams.

The game originated in Cincinnati around 1999. It is now becoming popular all over the Midwest, especially among college students, fans of tailgating, and NASCAR.

Past-Time Productions A Junior Achievement Company
