Dear Parents/Guardians,

Welcome to the Midview Schools! Enrolling your children for the first time marks a big step in their development. It's an exciting time in their life, but also a bit nerve racking for you as you see your children move on to a level of greater independence. It is also a time when you, as a parent, are inundated with rules, regulations, and forms.

Before school starts, you will receive a notice with the building, kindergarten screening date/time, and other information concerning kindergarten orientation day.

We will post full class lists in late August. These dates are TBD at this time.

However, we always post this information on our district website when it becomes available. <http://www.midviewk12.org>

We are required by the Ohio Department of Education to administer the Kindergarten Readiness Assessment (KRA) to all students entering kindergarten. This will be given by the teacher prior to November 1st. Children entering kindergarten must also be screened for vision and hearing. Our school nurse will complete this during the month of October right here at school.

As you can see, there is a great deal in store for you in the Midview Local School District. We are happy to have you as part of our Midview family.

Kind Regards,

Carla Molnar
